SUMMARY

As a Computer Science graduate specializing in Information Systems, I am eager to apply my skills in IT and software development. I have completed certifications in IoT, Python, UX/UI, and Quality Management, among others. My project, Freelancer: An Employment Application, connected freelancers with employers using Java and Firebase. Additionally, I have strong technical expertise in networking, cybersecurity, cloud computing, and IT project management.

EXPERIENCE

Despite my limited prior experience, I possess a strong desire to contribute positively to the workplace, leaving a meaningful impact and attaining notable achievements. I am adept at swiftly adapting to diverse work environments and accomplishing new goals

EDUCATION

King Khalid University | College of Computer Science | Saudi Arabia
Bachelor's Degree in Computer Science | Information Systems | March 2023
